For the dividend, the aforesaid regulations stated that no dividends shall be paid otherwise than out of profits. In the case where a company has incurred accumulated loss, no dividends may be paid.

The Company has a policy to pay dividends to shareholders of not less than 60% of the net profit after corporate income tax of each year. It will take into account the growth potential of the operating results, investment plans, requirements under loan or debenture agreements of the Company and its subsidiaries. Including the necessity and suitability in the future.

As of December 31, 2024, the Company had a net profit (the company's financial statement) of 684.13 million baht, but the consolidated financial statements still had a net loss of 79.66 million baht. Because the subsidiary had an operating loss of 764.05 million baht because the subsidiary's operating income was still not much, due to the number of foreign tourists, which were the main target group, not returning to Phuket like before the COVID-19 outbreak, resulting in insufficient liquidity to cover various expenses, especially the large amount of interest on loans. The Company therefore needs to reserve funds to enhance the liquidity of the entire group of companies.
